[Msds Sheets Osha 2013 Standard - greeting.teezi.vn](#)

A Material Safety Data Sheet (MSDS) is required under the U.S. OSHA Hazard Communication Standard. Most developed countries have similar regulations and requirements. The MSDS is a detailed informational document prepared by the manufacturer or importer of a hazardous chemical. It describes the physical and chemical properties of the product. MSDS's contain useful information such as flash point, toxicity, procedures for spills and leaks, and storage guidelines. Information included in a ...

Safety data sheets (SDS), formerly known as Material Safety Data Sheets (MSDS) under the Occupational Safety and Health Administration's (OSHA) Hazard Communication Standard, are a critical piece of the Globally Harmonized System (GHS) of Classification and Labeling of Chemicals. Safety data sheets are informational sources about chemicals that provide hazard information and safety ...

[United States \(US\) SDS Authoring - OSHA GHS ... - SDS / MSDS](#)

OSHA revised its Hazard Communication Standard (HCS) in 2012, adopting its version of the Globally Harmonized System (GHS). Among other things, this required a switch from MSDS to SDS for information about chemicals employees might be exposed to in the workplace. Material Safety Data Sheets did not have a set format, making them inconsistent and more difficult to read and compare.
