Through revisiting and challenging what we think we know about the work of Edward Burnett Tylor, a founding figure of anthropology, this volume explores new connections and insights that link Tylor and his work to present concerns in new and important ways. At the publication of Primitive Culture in 1871, Tylor was at the centre of anthropological research on religion and culture, but today ...

[Primitive Culture, Volume II \(Dover Books on Anthropology ...](#)

This second volume [Harper and Brothers, 1958] of a two volume study is primarily about animistic religious practices in non-developed cultures. In animism, the individual lives in a dual world. One is the tangible life as we know it; the other is the realm of spiritual beings. Spiritual beings have two forms. Individuals have a phantom existence that lives on after the body dies. These are ...
