Another way in which our journals adhere to the scientific method is peer review—that is, every part of the article must be open to review by others who look for possible mistakes and biases. The last part of the modern scientific method is publication. Despite its rigid structure, the scientific method still depends on the most human capabilities: creativity, imagination, and intelligence ...

[Quiz & Worksheet - The Scientific Method | Study.com](#)

Sometimes the scientific method is taught with seven steps instead of six. In this model, the first step of the scientific method is to make observations. Really, even if you don't make observations formally, you think about prior experiences with a subject in order to ask a question or solve a problem. Formal observations are a type of brainstorming that can help you find an idea and form a ...
