Murray Leinster, aka Will F Jenkins, wrote and published more than 1,500 short stories and articles. These stories include a retro-Hugo winner and several that were made into radio plays and sci-fi television episodes. A very good collection overall.

Murray Leinster has written so much sci-fi that it takes 3 megapacks to do him justice, and that's fine. His sci-fi is friendly and engaging for adults and young people alike, and his retro point of view, by today's standard, make his stories all the more accessible.

Murray Leinster's books appeared on library shelves and in paperbacks for decades and I learned to pick up those titles and look them over whenever one caught my eye. Many of the collections are stories now in the public domain, but the convenience of having these 99 cent Megapacks is that they are convenient and come quickly to hand without the usual searching for eBooks on the web. I ...

Murray Leinster is one of the great writers of Science Fiction from the "Pulp" era. His short stories are many and all are edged with very real possible futures. His writing was superb and having read all his novels, the chance to read a couple of short stories that have not been in an anthology was too good to pass up. After reading "First Contacts", I am sure you will go in search of his novels.

This collection rehabilitated my overall view of Murray Leinster. I'll be reading further stories in the Med Service sequence collected in S. O. S. From Three Worlds (1967) or the novella "The Mutant Weapon" (1957) soon. Recommended for fans of positivist 50s/60s pulp.

Prompted by my enjoyment of the Murray Leinster Collection, I went searching for another likely Leinster book to try. I vaguely recalled Mark Douglas Nelson running Operation: Outer Space at SciPodCast before it went to live at LibriVox. I'd give this 3-1/2 stars if it were possible. It just doesn't have the oomph to take it to 4 stars.

However, his greatest fame came from SF, and the Sidewise Award (for best alternate history ...
