Anna Lowenhaupt Tsing's remarkable ethnography, *The Mushroom at the End of the World*, sits squarely within this genre. Yet, unlike many studies, which often privilege novelty at the expense of grounded analysis, Tsing's book is an ethnographically rich, lexically innovative, and methodologically suggestive exploration of life in capitalist ruins.

Anna Tsing's "The Mushroom at the End of the World" is a delightful exploration of "third nature," or what lives despite capitalism. As she explains: "I look for disturbance based ecologies in which many species sometimes live together without either harmony or conquest." She traces this ecology for the Matsutake mushroom, a delicacy in Japan that has lead pickers to follow them around the globe to Oregon, where the logging industry has created forests of quick growing pines. Matsutake grow well

So through close, indeed loving, attention to a certain fascinating mushroom, the matsutake, Anna Lowenhaupt Tsing discusses how the whole immense crisis of ecology came about and why it continues. Critical of simplistic reductionism, she offers clear analysis, and in place of panicked reaction considers possibilities of rational, humane, resourceful behavior. In a situation where urgency and enormity can overwhelm the mind, she gives us a real way to think about it. I'm very grateful to ...
