Cheryl - Cleveland, Ohio Viper 1-Button Value 2-Way Remote Start System Best thing I ever put in a car. I live in Wisconsin where winter cold is colder than cold, it is great to walk outside and get into a warm car, windshield is clear of snow and ice, I bought and had it installed by Best Buy, it works great and the installer was very helpful and still is when I call with a quick question.

Has anyone change their Viper R12 a/c to 134a or ES-12a? If so how well did it work? I don't usually use my a/c (the top is never on the car)But would like to have it if I wanted to use it. Thanks. ...

I would not recommend using ice, freeze 12, etc. Stick with R12, or R134a. R12 is still available, and with some looking around (or calling around) you should be able to find a shop that can service your car without doing the retrofit. It will probably cost more than your average R134a service, but when you factor in the cost of the retrofit, it might end up being cheaper.
