This article explores the nature of wisdom using an integrative cross-cultural and cross-disciplinary approach by drawing on contemporary research as well as the philosophical and contemplative disciplines of both East and West. To do this the article first analyzes definitional issues. These issues include difficulties of definition in general, and of wisdom in particular, the common elements ...

Hence, to address this problem, anthropologists suggested that cross-cultural comparisons be based on a definition of culture that allows for thorough examination and development of comparable cultural units. In other words, the design of the study, prior to entering the field, should bring with it a flexible understanding of the theory behind culture. Brumann (1999) wrote that culture is ...

At this point it is also interesting to note a word of caution by Gudykunst's (2000, p. 314) which states that cross-cultural (i.e., comparative) studies do not necessarily tell us how people will behave or react when they take part in inter-cultural interactions. INTER-CULTURAL PRAGMATIC FAILURE . Riley (1989) suggests the following definition for pragmatic errors: "Pragmatic errors are the ...

Wisdom, sapience, or sagacity is the ability to think and act using knowledge, experience, understanding, common sense and insight. Wisdom is associated with attributes such as unbiased judgment, compassion, experiential self-knowledge, self-transcendence and non-attachment, and virtues such as ethics and benevolence. Wisdom has been defined in many different ways, including several distinct ...
